
Academy Values Ethos and Vision

“Changing Lives”

Vision

At Strand Primary Academy, we believe in the concept of lifelong learning and the idea that adults and children learn new things every day. We maintain that learning should be a rewarding and enjoyable experience; it should be engaging and purposeful.

Mission

Our mission is to develop children who have active and creative minds, a sense of understanding and compassion for others, and the courage to act upon their beliefs.

We have high expectations of all members of our school community and work together to provide a calm, caring, inspiring and enjoyable learning environment in which each child can develop their skills and abilities to their full potential. We seek to create a challenging learning environment that caters for the unique learning needs of every child.

By teaching our children to ask questions, make thoughtful decisions and solve problems, they are driven to develop skills that prepare them for the demands of the modern world they will soon be changing for themselves.

Aims

To work together to develop:

- Confident individuals who can present and articulate their learning to range of audiences in a variety of creative ways.
- Inquisitive learners who plan, organise and question to discover new things and work together to achieve success.
- Reliable researchers who can find new information, determine fact from fiction and extend our knowledge of the world around us.
- Trailblazers who conquer new technologies, use them effectively to plan, programme and produce products.
- Enterprisers who work in our local area and have a positive impact on the wider community.
- Guardians of our Globe who work to promote the sustainability of our planet; a community that respects the diversity of cultures and encourages a safe, positive moral, spiritual and social climate.
